Use Determination & Recommendation:

Has the use existed since November 28, 1975? ☐ Yes ☐ No ☒ Unknown
Comments:

Is the evaluated use attainable? ☐ Yes ☒ No

Comments: The UAA was conducted in July 2005 and no WBCR was observed. The stream did not meet the maximum or average depth criteria at any of the 11 sites evaluated. Interviews revealed that the stream was not used for swimming and that it was dry much of the time. Because of the shallow depth of the stream, the committee recommends removing the WBCR designation.

Committee Recommendation: ☐ Retain Use ☐ Modify Use ☒ Remove Use ☐ Inconclusive
